METAL-PAC MANUFACTURING LTD.

1577 Seel Avenue, Winnipeg, MB R3T 1C7

QUALITY AND INTEGRITY IN EVERY METAL-PAC PRODUCT

Since 1959, Metal-Pac has manufactured high-quality HVAC ducts for residential and commercial applications. Our facility, located at 1577 Seel Ave. in Fort Garry, Winnipeg, spans over 90,000+ square feet and houses modern manufacturing equipment, comprehensive inventory storage for our full line of internally produced products, and a dedicated shipping area.

We believe that quality and integrity are paramount in products designed for the spaces our end users call home. Our dedicated workforce continually seeks improvements in safety, efficiency, cost awareness, and quality. Committed to wholesale distribution, we focus exclusively on manufacturing, ensuring that our products consistently meet the highest standards.

CODE OF ETHICS

At Metal-Pac Manufacturing, our people are the foundation of our success. Every team member represents our brand and values, whether working together, serving customers, or interacting with partners, couriers, and tradespeople. Our Code of Ethics reflects the standards we uphold in everything we do.

BE COLLABORATIVE

We all benefit from helping one another. By fostering a team mentality rooted in mutual respect, we create an environment where everyone feels welcome. Inclusivity, regardless of an individual's background, is non-negotiable.

BE ACCOUNTABLE

We remain open to feedback from others as an opportunity for personal and organizational growth, because each team member's contribution matters. We take responsibility for our actions and learn from our mistakes.

HAVE INTEGRITY

We take pride in our work and our workplace. We demonstrate integrity by being dependable, honest, and respectful in all that we do.

BE ENCOURAGING

We support and motivate one another to grow—both at work and beyond. We remind each other of the standards we uphold and the values we represent both personally and professionally. We hold ourselves to a high standard, knowing that how we are perceived reflects who we are.

OUR CULTURE IN ACTION

We collaborate....to achieve the best possible results.

We hold each other accountable....to ensure that we learn and grow from our mistakes.

We pride ourselves on integrity..... because doing the right thing is the right way.

We encourage each other...to maintain an environment of respect, acceptance, and hard work.
